

Here we go again! I have someone telling me what I have to listen to not what I really want to listen too! I have to tread softly in fear of upsetting someones beliefs. I feel my rights are being infringed upon. The K-LOVE program is not harming anyone, I need K-LOVE in my life to help me thru the day. If someone doesn't need then they can very easily turn the knob on their radio. There again is an example of choice of freedom. GOD BLESS K_LOVE.
